## 1. Let's Learn How to Avoid Internet Troubles

While it is easy to get information about various things online via smartphone, there are more incidents of people getting scammed as a result. Tragically, personal information leakage can happen on a daily basis. To improve the ability to decipher what's safe information to share and how to gain information safely using a smartphone or computer, be sure to practice the following countermeasures that can be done immediately.

(Corresponding method)

1. Do not respond for fraud mail or unknown mail.
2. Avoid reusing ID's or password's for SNS (Abbreviation of Social networking services. Twitter, line and Facebook, Instagram and etc.)
3. Do not write criticism or slander online

Keep in mind there are risks behind convenience so please take care when using the internet.

Inquiry: City consumer affairs center at (83)1629, fax (82)4333.

## 2. Stop Unexploded Bomb Accidents!!

◆Three things you can do to prevent unexploded bomb or ammunition accidents.

### 1) Don't Enter!!

Due to a target practice and explosive ordinance training, the practice ground is a very dangerous place. The general public is restricted from entering, the military drill zones.

### 2) Don't Touch!!

If you do enter a military drill zone and discover an unexploded bullet or other ammunition, do not touch it! Unexploded ammunition is extremely dangerous!

### 3) Contact the Authorities!!

Should you discover unexploded ammunition in a drill zone, leave it as it is and immediately call the Fuji School. If you should discover unexploded ammunition outside of a drill zone, please contact the nearest police station.

Inquiry: Fuji school at (75)2311 (Weekdays – ex. 2291; Weekends and holidays – ex.2302)

Gotemba Police Station at (84)0110
